WebTop

The collaboration platform that brings everything together in a single digital space

by Sonicle

WebTop

Integrate everything needed to collaborate without limits

Access anywhere
Company email, calendars, contacts, tasks, and documents synced across browser, smartphone, or tablet.

Intuitive interface
Modern design with dark mode, multiple calendar views, and mobile fluidity for a flawless user experience.

Advanced customization
Add custom fields for your business processes and manage granular permissions on shared items.

Messaging and sharing
Internal chat, shared address book, and private cloud documents with precise visibility and edit controls.

Full synchronization
Mail, contacts, and calendars always up-to-date on iOS and Android.

Integrated certified mail
Manage certified communications directly in your workflows.
With WebTop, every team member works in harmony, wherever they are.

Discover the benefits for your productivity

A strategic ally for your company with superpowers

Security first

Data saved on controlled servers, no vulnerable local copies to theft or attacks. Secure access via credentials.

Modular scalability

Start with the essentials and add specialized modules as you grow, without interruptions.

Native mobility

On-the-go work as priority, with seamless sync so you never miss a beat

.

Perfect balance

Modern UX combined with granular controls for a personalized, collaborative environment.

Smart sharing

See colleagues' actions in real-time, share with selected externals, and maintain total control.

Result?

TMore efficient teams, optimized processes, and accelerated growth. WebTop frees you from chaotic multitasking.

Imagine these benefits in your daily routine

WebTop in Action
